

Discover your
Champions

What is a champion?

Change is hard. You know it, we know it, your employees know it. 70% of change initiatives fail. How do you ensure your change initiative is part of the successful 30%? The answer is change champions.

Champions naturally exist in every organization. How do you find them?

- Who can help me use my Microsoft 365 applications?
- Who knows about the technology my company uses?
- Who encourages me to try new things?
- Who shows me tips and tricks to make my job easier?

Natural champions are great – but to maximize their potential, you need to create a Champions Program in your organization. We'd love to help.
